- **Internal Auditing**—we serve as your company's internal auditor, ensuring that your audits are performed to schedule in an objective manner.
- **Supplier Sourcing**—we visit and evaluate potential suppliers to assess their ability to meet your requirements.
- **Supplier Assessment**—we perform initial and/or ongoing assessments of Supplier capabilities to ensure continuing incoming quality from your critical suppliers.
- **Supplier Development** — we work with your key suppliers, where appropriate, to identify and facilitate continuous improvement or problem-solving activities.
- **Quality System Development**—we can assist in Quality System Development to help your company meet customer QMS requirements or to improve the effectiveness of your QMS.
